

# GROW YOUR OWN MAINFRAME PROGRAMMERS

Course	Other Cities
COBOL Programming	Yes
COBOL Programming: Advanced	Yes
COBOL Debugging	Yes
ASSEMBLER	Yes
PI/1	Yes
FORTRAN	Yes
SAS	No
FOCUS	No
REXX	Yes
CA-EASYTRIEVE Plus	Yes
TSO/ISPF	By request.
MVS/JCL	By request.
DOS/VSE for Programmer	By request.
VM/CMS Workshop	By request.
VSAM for Programmers	By request.

The programmers you need may already be working for you! SYS-ED's challenging, "hands-on" training lets you develop your own programming staff and save the time, effort and expense of hiring new personnel. Since 1980, we have been helping organizations address their staffing requirements. In our courses, students learn by doing; one-third of their class time will be spent coding and debugging programs on our z/OS and OS/390 systems. Each student receives a comprehensive student workbook and reference card. We teach the complete range of programming languages and tailored advanced topics. After a course is over, students have access via the Internet to the inevitable questions which come up back on the job.

Classes are held regularly at SYS-ED's fully equipped classroom/computer facilities in New York City and major cities in North America and Europe. Customized course offerings are available for on-site sessions at your location. To view and print additional information - course topics, prices, and dates - visit our website at [www.sysed.com](http://www.sysed.com) and use the search engine.

Or contact David Shapiro at (212) 564-9147, 48, 49.
